Registered Investment Adviser

Dear Valued Clients:

For those of you who were invested in DWS Alternative Conservative or DWS Alternative Moderate for the 2009 tax year, you may receive a Schedule K-1 Form from PowerShares DB Precious Metals Fund, ticker symbol (DBP).

The PowerShares DB commodity and currency funds provide their returns by holding US T-Bills and exchange traded futures contracts. The IRS requires these funds to be marked to market at the end of each year, at which time investors are apportioned their pro rata shares of gains or losses

If you receive a Schedule K-1 Form for an **IRA account**, you may disregard it. For all other accounts, please forward it to your accountant so that they may advise you on how this relates to your tax filing.

Best Regards,

Claremont Financial Group, Inc.
